Pancake Tuesday

PANCAKE TUESDAY

Pancake Tuesday was celebrated on February 21st, 2023.

Why do we celebrate Pancake Tuesday?

It was the last chance for a spot of indulgence before 40 days of fasting, and also an opportunity to use up food that couldn't be eaten during Lent. This included eggs, fat and milk, which were made into pancakes and eaten on that day.

Joint Commission International

JCI stands for the Joint Commission International. We received our initial accreditation in June 2020. We hope to maintain this prestigious accreditation with a tri annual survey which is due to happen in May 2023.

JCI considered the world leader in healthcare accreditation and the author and evaluator of the most vigorous international standards in quality and patient safety.

JCI regarding homecare standards includes some of the following important areas in achieving certification which we have undertaken.

- Access and continuity of care services
 - Individual and family rights
 - Assessment of needs
 - Care, services, and support
- Quality management and improvement
 - Prevention and control of infections
 - Information and organisation management
 - All patient centred care and interactions
- Safety of environment & staff qualifications and education.

As staff of Myhomecare you may meet with the surveyors during their period in Ireland. Your local teams will be in contact to help with any questions you may have and will share information in the coming weeks.

ST. PATRICKS' DAY

We celebrated St Patrick's Day on 17th March, for some towns this was the first parade since restrictions started to lift.

It was great to experience and see the celebrations across the country as it is one of the biggest holidays in Ireland's cultural calendar and a national holiday with a **host of events throughout Ireland** in celebration of the nation's patron saint.
